SUSTAINABLE OFFICE CLEARANCES

If you are looking for environmental, social and measurable financial sustainability from your office clearance project, we are here to help. Since our inception, our team

have been providing businesses with a wide range of services to enhance their workplace and improve their operations; these include sustainable office clearances. As nationally recognised industry leaders, we can bring great value to your project – reduce carbon costs and minimise waste in the process.

ENVIRONMENTAL IMPACT

Our team makes it easy for our customers to eliminate furniture waste through several schemes designed to rehome and recycle furniture that is no longer required by the office. Redundant goods are inspected and then either rehomed locally or sent for recycling – materials are separated to ensure that nothing will be sent to landfill.

We inform our customers where their furniture has been rehomed and if recycled, we will provide certification.

INDUSTRY KNOWLEDGE

Our 25+ years of experience has seen green initiatives, services, technology and governance constantly evolve. We keep abreast of the latest innovations, practices and legislation in sustainable office clearances to keep doing the best we can for the environment

As an ISO:14001 Environmental Management accredited business, we have a responsibility to promote sustainability to ensure that the waste we produce (or come into contact with) during our work is cleared in the most ecologically friendly way possible.

FINANCIAL SENSE

We always look to maximise the life of existing furniture before specifying new items. We save customers money by reusing and repurposing existing furniture through refurbishment programmes.

We are also experienced in sourcing second-hand pieces that can be incorporated into your designs as is or through restoration.

SOCIAL VALUE

We provide our customers with the option of participating in furniture rehoming programmes which allow for redundant items to be repurposed in the community. We are proud to regularly provide our Charity partners with items that they need.
